

"The air in the room treated by LifeOX-AIR is fresh and free of unpleasant odours. The disinfection effect resulting from application of the LifeOX[®]-AIR device contributes greatly to minimization of health risks. The LifeOX device participates significantly in satisfaction of our clients."

Health comfort of our guests is the most important thing for us, but we also aim to be environmentally friendly. Disinfection by LifeOX[®]-AIR is therefore an ideal solution. The difference in quality of air in a hotel room before and after using LifeOX[®]-AIR is fantastic.

Hi! I tried the 'better than air cleaner' LifeOX and I was so pleasantly surprised. It really does work! My daughter is an allergic person. She does not have breathing problems at home or in the car anymore. Big thank you!

K. Lambe, France

I like the smell of fresh air :) I have to live in a city, though. My husband gave me LifeOX for Christmas. I am satisfied with it.

Dorothy Hugh, GB

Dear LIFETECH,

I have to write you. I bought your device LifeOX a few months ago. I am absolutely amazed and I use it every day. But it surprises me every time I use it. Firstly it cleaned our flat, then grandmother's house - there was mould all over and it disappeared. We put it to a cellar there and apples, peaches and pears, they were fresh much longer than usually. Thanks for inventing this.

J.T., Switzerland

Satisfied.

James Lock, GB

Good product. In addition, ecologic!
